Skin sensitivity

Patch test performed on each individual botanical extract.
No skin reactions observed

Clinical trial

No side effects observed in 12-day trial of product containing 11.5% Botaniplex™ CLEAR

Toxicology assessment

A qualified toxicologist has conducted a safety assessment according to (EC) No. 1223-2009, taking into account all the ingredients individually, in combination and in combination with other cosmetic ingredients.
For a leave-on topical product containing Botaniplex™ CLEAR, the toxicologist concludes that there are no likely safety hazards.
